

HOW CAN YOU BETTER ALIGN YOUR PROJECT-BASED WORK WITH STRATEGIC BUSINESS PRIORITIES?

Allow us to help you leverage your project management tools to optimize your resources.

If your company manages multiple projects on multiple tracks, you already recognize the challenges of project management. At MHO Solutions, we offer resources to help companies align and control project-based work with their strategic business priorities for greater productivity.

With our Enterprise Project Management (EPM) Solutions and services, your company can:

- Automate tasks and reports to optimize use of resources and employee skill sets.
- Accelerate project lifecycles to deliver more with less time and money.
- Ensure the value of your companies IT investment by increasing visibility into IT projects.
- Maximize ROI by leveraging your current Microsoft application suite.

Whether you outsource your critical project management to MHO, or just leverage our project management toolset and deliverables, MHO will help your company and team focus on the business objectives and stay within budget, scope, and timelines.

MHO Solutions' EPM Practice is built around:

- PMP and/or CompTIA Project+ certified staff
- Microsoft Office Project Server 2003
- Microsoft Office Project Professional 2003
- Microsoft Office Project Web Access
- Microsoft Windows Server™ operating system
- Microsoft SQL Server 2000

Features:

- Web-based time/status reporting.
- Web-based views of portfolio and project performance and data.
- Portfolio analysis and modeling.
- Team collaboration with Outlook™ and SharePoint™ Services

OBTAIN A BIRD'S-EYE VIEW OF ALL OF YOUR ORGANIZATION'S PROJECTS.

EPM SOLUTIONS' "EXECUTIVE DASHBOARD" HELPS INCREASE YOUR VISIBILITY INTO PROJECTS.

Don't let the following common causes of project failure affect your company project and subsequently undermine confidence in your IT team:

- Poorly defined project objectives
- Lack of communication
- Lack of executive sponsorship
- Poorly defined resource requirements and timelines

We've shown many organizations like yours how to capitalize on our Enterprise Project Management (EPM) Solutions to positively impact their bottom line. These solutions provide powerful project management tools that can help your company establish regulatory compliance standards and exercise greater control over internal cost. Our EPM tools can let you and your project team:

- Obtain historical and real-time information on project status.
- Exercise greater control over internal costs.
- Establish a consistent view into how resources are allocated.
- Collaborate via central document repository
- Share status, issues, and risks both internally and externally (vendors, contractors, etc.)

"Only 14 percent of all (project) failures can be chalked up to a company's inability to cope with technology. The other 86 percent owe to some common management woes: improperly defined objectives (17 percent), unfamiliar scope (17 percent), lack of effective communication (20 percent) and poor project management skills (32 percent)."

- KPMG (Risk Consulting)

MHO's EPM Practice is part of its overall commitment to operations excellence. Let MHO help your project team(s) drive business efficiency from the top by building repeatable processes and tools that can be used by all teammates.

Other services available through the MHO Professional Services team include:

- **Staff augmentation** – Let MHO provide the short-term resources critical to the success of your project
- **Program Management Office** – Leverage MHO's project management toolset to provide a centralized PMO for communications, billing, and more.
- **Application / Web Hosting** – Use MHO's top-tier facilities and hardware to host test and production instances during your project rollout.
- **Vendor selection assistance** – Early stages of business requirements review and project development can be aided by MHO's experienced staff across several disciplines.
